## Education

<b>Narula Institute of Technology</b> , BTech in Computer Science and Technology	July 2022 – Present
• CGPA: 8.74 (till 5th sem)	
<b>Belgharia High School</b> , Class XII	2022
• Percentage: 86.8	
<b>Belgharia High School</b> , Class X	2020
• Percentage: 86.57	

## Projects

<b>Portfolio</b>   <a href="#">Link</a>	July 25
• A personal portfolio with responsive design, smooth scroll, animated transitions, project showcases with live/demo links, categorized skills, a contact form, and resume viewing functionality.	
• Tools used: React JS, Tailwind CSS	
<b>Razorpay App Clone</b>   <a href="#">Link</a>	May 25
• Built a static Razorpay clone with pixel-perfect layout, responsive design, smooth UI interactions, and cross-browser consistency.	
• Tools used: React JS, Tailwind CSS	
<b>Amazon Website Clone</b>   <a href="#">Link</a>	Aug 24
• Developed a static e-commerce website clone of Amazon. Focused on creating a responsive design that replicates the core layout and visual elements of the original site. Ensured cross-browser compatibility and a user-friendly interface.	
• Tools used: HTML, CSS	
<b>Stone-Paper-Scissor Game</b>   <a href="#">Link</a>	Mar 24
• Created a Stone-Paper-Scissors game using HTML, CSS, and JavaScript. Designed the user interface for seamless gameplay and implemented game logic to handle user input and display results dynamically.	
• Tools Used: HTML, CSS, JavaScript	
<b>Currency Converter</b>   <a href="#">Link</a>	Feb 24
• Built a currency converter with real-time exchange rates, API integration, and a clean, user-friendly interface.	
• Tools Used: HTML, CSS, JavaScript
